

kneeGRIP® Matrix Free 2-week Demo from SunMedica.com

The kneeGRIP® Matrix is part of a system that supports the lower extremity for knee surgery such as a total knee replacement. The kneeGRIP® Matrix is used with the kneeGRIP® System which utilizes a Lateral Upright Thigh Support and a Foot Support.

The kneeGRIP® Matrix consists of a Matrix Plate and a Matrix Boot. Both of the kneeGRIP® Matrix parts are made of aluminum and are designed to be sterilized prior to use during surgery.

Benefits

- Easily change the position of the foot
- No mechanisms, hinges or levers

- Achieve desired flexion & rotation!
- Works with SunMedica's kneeGRIP®
- Does not get in the way of the surgeon
- Durable/long lasting - 10 year warranty on all metal parts
- Compatible with any industry standard operating room table. (Does not come with side rail clamps)
- Coversets included with set (protective white fabric on positioning pieces to avoid skin irritation)
