

Does it matter where you get your pessaries?

*Yes – because
Quality, Service and
Price matter*

Quality

EvaCare® Pessaries are made of medical-grade silicone (no latex) and come in all the standard configurations, including Soft Version Rings that many clinicians and patients find easier to insert and remove.

“EvaCare Pessaries are a wonderful alternative compared to other brands due to their softness that provides added comfort for our patients.”

J. Rosen, Continence Center of America

Pessaries are our priority at Personal Med. They are core to our mission of advancing women’s pelvic health with conservative therapies.

Service

We ship most orders the same day and we support our customers with a caring, knowledgeable staff who actually answer the phone.

"Calls are always very friendly and it's easy to order. All items come in a timely fashion, without issues. I appreciate the great service!"

S. Rouse, Women's Health Boutique, Airway Oxygen

Price

We're offering Special Low Pricing to recipients of this email. No minimum purchase is required, and your special pricing will not expire.
